GERMAN NAVY IN HANDS OF REVOLUTIONISTS, REPORT

AMERICANS, BRITISH AND FRENCH SMASH LAST STABLE PART OF GERMAN LINE. FOUR MILES OF SEDAN.

(By the Associated Press)

LONDON, Nov. 7.—The entire German navy and a great part of Schleswig are in the hands of revolutionists, according to reports received in Copenhagen from Keil and transmitted by the Exchange telegraph company.

(Associated Press War Summary)

Germany is holding on the Aisne river, from Retsel eastward to above Vouziers, which has remained firm, while the rest of the enemy front has crumbled and broken. The French troops have thrown bridges across the river and are continuing in pursuit of the foe, who is abandoning large quantities of munitions and war materials as he flees through the ever narrowing gap through Belgium to comparative safety. Vervins has been captured and Retsel has been evacuated by the enemy. The British continue to move on Maubeuge from the southwest and the Americans, in the Meuse sector, are within four miles of Sedan, where on September 1, 1871, the decisive battle of the Franco-Prussian war was fought. The entente troops have crossed the Austro-Hungarian lines at several places to take the places of the dual monarchy's troops, so the latter can be transported home in groups. This is the first actual step toward carrying out the armistice terms.

Pursuit of Huns Continues.

PARIS, Nov. 7.—Along the entire French front pursuit of the retreating Germans was continued this morning, according to the official statement. The French have thrown their cavalry into action on their right, where mounted troops are pushing in the direction of the Meuse.

British Advance on Belgian Line.

LONDON, Nov. 7.—British forces are continuing their progress along the Franco-Belgian line, northeast of Valenciennes, according to Field Marshal Haig, in his statement today. They have reached the outskirts of Quiévrain and Crepin, close to the Belgian border.

Revolt Reported in Hamburg.

COPENHAGEN, Nov. 7.—Revolt has broken out in Hamburg, according to a dispatch from the Copenhagen Politikens correspondent at Vambrus. Violent artillery firing was progressing in the streets when the correspondent's information was dispatched, he declared.

AMERICANS ENTER SEDAN

CUT MOST IMPORTANT RAILROAD IN HUN LINE OF COMMUNICATIONS ON WEST FRONT.

(By the Associated Press)
WITH AMERICAN ARMY ON SEDAN FRONT.—(1:45 P. M.)—American troops today entered that part of Sedan that lies on the west bank of the Meuse river. The bridge over the Meuse at Sedan, over which the retreating enemy fled, has been destroyed and the river valley flooded. The principal German communications between Metz and Northern France and Belgium are now either cut or unavailable for the enemy's use. Since November 1 the Americans have taken 6,000 prisoners.

REPUBLICANS WILL CONTROL HOUSE

WASHINGTON, Nov. 7.—With control of the House of Representatives placed in the hands of the Republicans by a majority of sixteen and probably more, the attention of the country today is centered on three States, Michigan, Idaho, and New Mexico, which will decide whether the Democrats will lose control of the Senate as well. At midnight last night returns from five congressional districts were missing—in Montana, New Mexico and South Dakota. Without them, however, the Republicans have won 234 seats in the House—sixteen more than the 218 votes necessary for a majority. The Democrats on the face of these returns had 195 seats and, if the five missing districts were to be conceded to them they still would lack eighteen votes of the number necessary to control the House.

WEWOKA CO. COVERS ITSELF WITH GLORY

Following is an excerpt from a letter received from a Wewoka officer at the front and forwarded to Luther Harrison:
The old home company, Company G, now Company F, went over the top just in front of us and they surely made good against big odds. * * * You remember Artie Brown and Fritts who were with me on recruiting duty? Well Artie Brown has gone west, and I think Fritts was wounded. Richard Harrison also has gone west. He and Brown were in the same company and they died fighting just in front of a bunch of German machine gun nests. Surely men can be no braver. I saw Richard—he fell just in the edge of the barbed wire entanglement, but I did not have time to look for Brown as we were going forward. There were others, too. Wewoka and Holdenville can well be proud of her company of men. They stood the test and made good. I wish I could give you the details of the fight, but cannot.

CELEBRATION WAS TOO EARLY

(By the Associated Press)
WASHINGTON, Nov. 7.—Secretary Lansing's announcement that the armistice had not been signed came after Washington had been celebrating for two hours on the strength of an unofficial rumor that armistice terms had been accepted.

Hun Delegates Expected Tonight.
PARIS, Nov. 7.—(3:30 P. M.)—Four German officers bearing white flags, it is officially announced, probably will arrive at Marshal Foch's headquarters tonight.

Leona Ray, aged 2, the daughter of James Ray and wife of Egypt, died Wednesday night at the emergency hospital.

WHEAT SUBSTITUTES

MAY BE DIMINISHED.
WASHINGTON, Nov. 7.—Plans to diminish by January 1 the percentage of substitutes used in wheat bread in allied countries and the United States are being discussed by the Inter-allied food council in London. The reduction, if decided upon, a statement issued by the food administration tonight said, will be direct result of the Austrian armistice.

however, does not alter the totals of food demands upon the United States," said the food administration "but in fact will increase our load and therefore there will be increased demands for economy."

A NERVOUS WRECK

From Three Years' Suffering, Say
Cardui Made Her Well

Texas City, Tex.—In an interesting statement, Mrs. G. N. Schill, of this town, says: "For three years I suffered untold agony with my head. I was unable to do any of my work."

I just wanted to sleep all the time, for that was the only ease I could get, when I was asleep. I became a nervous wreck just from the awful suffering with my head.

I was so nervous that the least noise would make me jump out of my bed. I had no energy, and was unable to do anything. My son, a young boy, had to do all my household duties.

I was not able to do anything until I took Cardui. I took three bottles in all, and it surely cured me of those awful headaches. That has been three years ago, and I know the cure is permanent for I have never had any headache since taking Cardui.

Nothing relieved me until I took Cardui. It did wonders for me."

Try Cardui for your troubles—made from medicinal ingredients recommended in medical books as being of benefit in female troubles, and 40 years of use has proven that the books are right. Begin taking Cardui today.

The Huns now have barely a toe hold left to them in France and even this is slipping. Unless an armistice is signed at once the Allies will eat Thanksgiving dinner on German soil.

Sedan was the grave of the French empire under Napoleon in 1870 and now bids fair to be the same for the German empire with the Americans performing the last rites. It might be well to remember that the British and Belgians have the Huns pushed back towards Waterloo as well.

Switzerland, though a democracy, will soon be the home of more crowned heads than any other nation. Already a former king of Greece and two from Bulgaria have taken refuge there and their number will likely be increased materially before much longer. The next two will be the Kaiser of Germany and emperor of Austria.

Lenine and Trotsky have lost none of their nerve. They have offered to make peace with the allies if they will evacuate the Russian territory they now hold. The chances are that these two traitors who sold their country to the Germans will themselves be on the run before much longer. With the collapse of Germany and impossibility of getting military assistance from that source the bolsheviks will go up against it.

It is a long jump for the strutting German officers to hoist the white flag to the Allies and, hat in hand, ask Foch what terms he will grant them, when only a few months ago they were telling of the terms they were going to impose on the Allies. Four years ago they considered themselves masters of the world and conducted themselves accordingly, but now they are the under dogs and willing to take anything they can get in the way of terms. They will kick, of course, but that is the least of Foch's worries.

PEACE PROBABLE.

The report from Berlin that a delegation had left for the western front to conclude armistice terms and arrange for a discussion of peace brings the conclusion of hostilities nearer. Unless there is a hitch somewhere, the terms ought to be signed before the middle of next week and the war be a matter of history.

We should not be too optimistic over the outlook. Really we feel that the Germans will sign the armistice terms almost as soon as they get an opportunity, but it is possible that such will not be the case. The German front is crumbling, and crumbling fast, but the armies could hold out for a month or two yet. It is possible that as long as the armies are together, the military

authorities will refuse to accept the drastic terms which will be imposed by the Allies.

This is the greatest time in the world's history. Today we are living at the apex of historical events. For thousands upon thousands of years kings and emperors have made war, made peace, and prepared for war again. Gradually for the last two hundred years, the people have been taking the power of government into their own hands. Now the last autocracies have bowed before the will of free peoples, and the last bit of this king stuff has been kicked off the earth.

Peace is about to be concluded. New governments, new eras will rise from the ruins of thrones and kingdoms.

When the war is over and the German historians tell how it all happened Admiral von Tirpitz will be named as the man whose blundering caused the down fall of Germany. He started his submarines out to sink ships of belligerents and neutrals alike, intending to starve England and France and terrorize the rest of the world. He did not have a sufficient number of subs to carry out his policy and only succeeded in bringing the United States into the war at the most critical time with the result that the Huns were forced to raise the white flag and acknowledge that Germany is not to rule the world.

Reuben C. Laxton Wounded.

Dear Sister and Family:
I'm in the base hospital at present with a bullet wound in the head but will be all right in a few days, hope so, anyway. I got wounded Oct. 13, about 3:30 p. m. I have been over the top four times and also got myself a few Huns. I think I shall be able to go back to the front in a few days.

Tell everybody to write. I haven't much time to write but will write every chance I get.

Bruce Ligon in Hospital.

Dear Mother:
I have been sent to another hospital farther south, but expect to stay only a few days as my leg is about healed and I feel fine.

This town is a summer resort and looks more like an American town than any I have seen in France. Uncle Sam has taken charge of most of the hotels and is using them for hospitals.

Yesterday I saw Bob Deckert who is the second boy from home I have seen in France. The other was Roy Adair whom I met at a coast town about four months ago.

It has been twenty days since I was wounded and I have had a good rest which I was certainly in a condition to enjoy.

I was certainly hurt to find Charlie Cottingham's name on the casualty list the other day. He enlisted with Zeke West and me and was one of the most liberal and nerviest boys I have ever seen and had a disposition that no one could keep from liking. If you like you could write anything to his mother at Stonewall for me. I wish you would for I know that if ever a soldier died bravely he did.

Don't worry about me, my danger is over. I do not think that I will be anywhere near the front again.

HOW TO FIGHT

SPANISH INFLUENZA

By Dr. L. W. Bowers.

Avoid crowds, coughs and crows, but fear neither germs nor Germans! Keep the system in good order, take plenty of exercise in the fresh air and practice cleanliness. Remember a clean mouth, a clean skin, and clean bowels are a protecting armour against disease. To keep the liver and bowels regular and to carry away the poisons within, it is best to take a vegetable pill every other day, made up of May-apple, aloes, jalap, and sugar-coated, to be had at most drug stores, known as Dr. Pierce's Pleasant Pellets. If there is a sudden onset of what appears like a hard cold, one should go to bed, wrap warm, take a hot mustard foot-bath and drink copiously of hot lemonade. If pain develops in head or back, ask the druggist for Anuric (anti-uric) tablets. These will flush the bladder and kidneys and carry off poisonous germs. To control the pains and aches take one Anuric tablet every two hours, with frequent drinks of lemonade. The pneumonia appears in a most treacherous way, when the influenza victim is apparently recovering and anxious to leave his bed. In recovering from a bad attack of influenza or pneumonia the system should be built up with a good herbal tonic, such as Dr. Pierce's Golden Medical Discovery, roots and barks of American forest trees, or his Frontic (iron tonic) tablets, which can be obtained at most drug stores or send 10c. to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for trial package.

BOLSHEVIKI INDIGNANT

AT ALLIED OCCUPATION

(By the Associated Press)

MOSCOW, July 21.—(Delayed)—

A Bolshevik chorus of indignation protests met the statements of the American, British and Japanese governments to the Russian people, setting forth the reasons which impel them to dispatch troops to Russia. The editorials in official and non-official Bolshevik papers raved each other in the use of denunciation language and abound in such expressions as "lies," "hypocrisy," "stupidity" and others of a similar character, all designed to convince the readers that the Allies did not mean to help Russia but only to crush the Soviet government and draw the country into the war in order to improve their own position on the Western front.

It Pays to Buy the Best

But every housewife should remember that the best is not always the highest priced. Experience has taught me that you can't always judge quality by the cost sign.

That is particularly true of baking powder. Baking powder quality can be determined only by bake day results. The baking powder that serves you best—regardless of what you pay—is the best to buy and use.

I have made a close study and careful investigation of baking powder, because it is unquestionably one of the most important of baking materials. It affects all ingredients employed with it.

No woman, no matter how careful her selection of flour, sugar, eggs, etc., can employ the limit of baking economy if she uses a poorly made, wasteful baking powder.

Merit, not money, is the only safe basis upon which to estimate the worth of a baking powder. Fortunately the housewife no longer has to conduct costly experiments of her own to determine just which particular brand is the most efficient and economical. Experts like myself, make a business of testing baking powders and at last arriving at their actual value. We make no mistakes in our decisions as our experiments are made along strictly scientific lines.

Millions of women are now profiting by the aid offered by domestic scientists.

I know this to be true—as choice is now centered on the brand of baking powder that I and other domestic scientists have found superior through both chemical and oven tests. It is becoming more popular every day. Its tremendous sales increase was not influenced in the least by cost. It is a moderate priced baking powder. Costs considerably less than some other brands. Still it is preferred by women who could and would pay more were it possible to secure the desired quality. They don't buy this brand of baking powder because of a saving of cost—but because of its demonstrated superiority. To them it means the greatest quality value—the greatest purity—and greatest certainty of results that can be had at any price. Decidedly the best, not because of moderate price, but because of its unimprovable merit.

In justice to those who read this article—that they may share in the savings and baking success assured by the biggest selling and recognized superior baking powder it is no more than fair that I give publicity to the brand preferred alike by experts and America's millions of housewives—Calumet Baking Powder.

GERMANS MISUSE RED CROSS EMBLEM

(By the Associated Press)

WITH THE AMERICAN ARMY IN

FRANCE, Nov. 7.—Misuse of the Red

Cross emblem by the German army is bringing bitter comment from American officers in position to know what is being done. A lieutenant in the medical corps and an infantry officer assert that "all the stories told about German army's devilish and inhuman tactics are true."

Taught to respect the Red Cross flag, American troops were led into many an ambush by Boche trickery in the display of this insignia. And what has incensed the Americans the most is the fact that the German refused to recognize the Red Cross emblem at any time.

"Before going to the front I was inclined to doubt some of the stories being circulated about the Germans," said the medical officer, "but after

one month in the front lines I can believe anything that is said against them. They are so guilty of inhuman and barbarous acts themselves that they refuse to respect the use of the Red Cross by the Allies. Their use of the Red Cross insignia is one of the biggest crimes they ought to be made to answer for after the war."

One of the tricks used by the Boche was to plant a Red Cross flag in the tower of a church of a village in the path of the advancing Americans. Respecting it, the infantry would not call for any concentration of artillery fire on these buildings.

The American troops upon taking one particular village advanced upon a church, from which was displayed, a Red Cross flag, without suspecting any trick. When they were within short range, a murderous machine gun fire was poured into their ranks from the windows and towers of the church. When the Americans finally gained the interior, they found six machine guns, manned by a platoon of sturdy Boches—not a sign of any hospital or dressing station. Needless to say no prisoners were taken.

THE MOST DANGEROUS DISEASE

No organs of the human body are so important to health and long life as the kidneys. When they slow up and commence lag in their duties, look out! Danger is in sight.

Find out what the trouble is—without delay. Whenever you feel nervous, weak, dizzy, suffer from sleeplessness, or have pains in the back or difficulty in passing urine—wake up at once. Your kidneys need help. These are signs to warn you that your kidneys are not performing their functions properly. They are only half doing their work and are allowing impurities to accumulate and be converted into uric acids and other poisons, which are causing you distress and will destroy you unless they are driven from your system.

DUTIFUL WIFE GOES HOME TO MOTHER

Misunderstanding Causes New Husband Some Anxiety—Calls Police.

Oklahoma City, Okla.—Married at eight o'clock, bride gone fifteen minutes later. This was the fate of a young Tulsa bridegroom.

After leaving the church the couple drove to the hotel where the bridegroom had registered. He left the bride in the lobby with these words:

"Now you stay here while I go and pack. Then we'll get out to your mother's and stay a few days."

When he returned to the lobby she was gone. Thirty minutes' frantic search followed. Then he thought of the police, so called in Chief Nichols. The chief thought a moment. "May-

be she's out to her mother's," he told the distracted bridegroom. Ten minutes later they were in each other's arms.

"I thought he said: 'I'll pack my grip and you go out to your mother's,'" she explained. "I thought it was funny, but supposed he knew his business—I didn't."

PRISONER SENDS BROKEN LEG OUT FOR REPAIRS

East Liverpool, O.—Charged with dallying too long with the "cup that cheers," John H. Mercer was arrested.

During the process of arrest his leg was broken. As a consequence he paced his narrow cell at the city prison with difficulty.

An acquaintance visited him. "Here," said John, "I've broken my leg. Take it down to the blacksmith shop and have a piece welded on it, so I can walk smooth."

The friend carried out instructions. The leg was wooden.

TRAIN CATS FOR HUNTING

Not Even Burbank Has One Thing on This Officer From the State of California.

Oakland, Cal.—Robert Tyson, assistant probation officer, is the owner of two felines, Clinkers and Cinders. They accompany him on his pre-dawn light trip through his orchard. At the report of a gun they dash off to get their prey, seldom failing to return with a bird.

To such a remarkable degree has Tyson trained the hunting instinct in the felines that it is necessary to warn guests not to slam the doors in the house.

He explains that on one occasion the noise of a door slamming was mistaken for the report of a gun and the cats started out in search of prey.

This mistake cost him two pet go-lings.

Thief Takes Church Auto.

Seattle, Wash.—Here is a person absolutely without fear—unregenerate and who played with fire unafraid. This fearless person stepped into a runabout standing at a curb in the downtown section of Seattle. The car is the property of the Rev. W. A. Wilson. It bore the words on each door: "First Presbyterian church." On the driver's seat were two Bibles. The thief probably sat on these as he drove away.

Sleepe While Standing.

Marysville, Cal.—Dan Kelly, arrested on a misdemeanor charge, went to sleep standing up in the court room. Called upon for an explanation, Kelly, who has only one natural leg to stand upon and one wooden one, declared that he had suffered with asthma for the past ten years and had to sleep standing up. He said he was so accustomed to dozing in this position that he forgot he was in court.

A VISIT TO TWO

EASTERN ARMY CAMPS

Francis, Okla.

To the Editor of the Ada News:
Having just arrived from a visit to Camp Greenleaf, Ga., and Camp Sevier a few lines to the News for publication.

I left Francis Aug. 9 to visit my husband, Louis Can, who left Ada on July 26 for Camp Greenleaf, Ga. I learned many things about the training camp and had a nice time. But what amused me more was the German prisoners. There were 1,000 prisoners. Their prison consists of about 125 long flat buildings and a wire pen about 25 feet high and wires about 3 inches apart charged with electricity.

The prisoners look very mean and angry, but some of them bought liberty bonds as the 4th liberty loan so I guess some of them had a soft place in their hearts.

The camp is large and very clean and nice. I also saw many curious statues and the old battle fields and monuments of old Confederate generals on Lookout mountain. I roomed out at camp and my room was partly furnished with the old war furniture. My dining table was General Thomas' writing table. That was quite a curiosity to me.

On Sept. 10th my husband was transferred to Camp Sevier, South Carolina. As soon as he arrived there I went to that camp and stayed two months. While I was there of course I had to have the flu and couldn't go out to camp to watch the soldiers drill so that hurt worse than the flu. There were many deaths at Camp Sevier and at Greenville, S. C., too.

It rained all the time there. The people thought if it didn't rain every other day they were having a drought.

Soon after I arrived at Camp Sevier, Mrs. C. S. Carter from Oklahoma, Okla., came to visit her husband. I was glad to see some one from God's country of Oklahoma and we had quite a time together and both returned Saturday leaving our husbands leaving for Hoboken, N. J., but hoping the Huns will be whipped before he gets any farther. I remain in hopes,
MRS. HESTER CAN,

ED GWIN TO LEAD NEXT CAMPAIGN

UNITED WAR WORK QUOTA FOR
THIS COUNTY \$18,000. CAM-
PAIGN LIKE OTHERS.

Ed Gwin has been appointed chairman of the United War Work campaign which will be put on in this county between November 11 and November 18. The entire nation is asked to raise \$170,000,000 to help the several agencies of the war. Pontotoc county's quota is \$18,000. Mr. Gwin says he will conduct the campaign similar to the way the other war campaigns have been conducted. Chairmen for the various towns and school districts will be appointed and these towns and districts will be given quotas. Mr. Gwin is one of the live wires of Ada, an effective organizer, and has the pep to put over anything he attempts. Pontotoc County will naturally be expected to raise her quota just as she has complied with every other request made of her.

WILL DEMAND PUNISHMENT OF HUNS FOR CRUELITIES

LONDON, Nov. 5.—(via Montreal)—The names of all enemy army corps commanders or other persons who are known to have been guilty of or have encouraged cruelty to war prisoners, will be included in the list of persons whose trial and punishment will be demanded by the allies, Sir George Cave, the British Home Secretary, announced today. Persons who have acquiesced in actual cruelty by subordinates are likewise to be included. It was considered inadvisable at present to state the names of the persons in the list, Sir George said. The French Government, the Home Secretary added, had been requested to cause all possible steps to be taken to bring to account the commander of the camp at Philippopolis, Bulgaria, who was notorious for his ill treatment of British prisoners.

UNITED WAR WORK HAS RIGHT OF WAY

OKLAHOMA CITY, Nov. 7.—That the public may be relieved of promiscuous war giving as a result of appeals from sources unauthorized by the Federal Government, the Oklahoma State Council of Defense has issued a notice urging all citizens to give freely to the United States War Fund, which campaign is now in progress. Included in this are the Young Men's Christian Association, the National Catholic War Council, K. of C., the Jewish Welfare Board, the War Camp Community Service, the American Library Association and the Salvation Army. The total amount to be raised is \$170,500,000 and constitutes the largest gift ever asked from any people at one time.

Perfect Artificial Eyes.
Artificial eyes are much more commonly worn than most people imagine. The average user does not make advertisement of the fact, which may be known only to a few intimate friends, for such eyes nowadays, a product of the glassblower's highest skill, are of a workmanship so artistic as to be perfectly deceptive. When, as is usually the case, the eye is set upon the "root" of the natural organ it moves exactly like a real one.

Poor Man!
According to Plutarch, Cato said that in his whole life he most repented of three things. One was that he had trusted a secret to a woman; another, that he went by water when he might have gone by land; the third, that he had remained one whole day without doing any business of moment.

Fetters Used in Ancient Times.
The use of fetters goes back to ancient times. Fetters were usually made of brass and also in pairs, the word being in the dual number. Iron was occasionally employed for the purpose (Psalms 106:19; 149:3).

COUNCIL OF DEFENSE NEEDS SOME FUNDS

O. N. Walker, secretary of the County Council of Defense, says the citizens of Ada will be asked to pay their subscriptions to this organization in the next few days. The business men of Ada a year ago agreed to pay a given sum each month, the collections to be made quarterly. Thus far only the subscription for one quarter has been collected. It will be necessary to collect the amount due for six months in the past making two quarterly payments at this time. The other quarter which has passed will not be asked for. The Council of Defense is being called upon more and more to assist the war. It has to recruit labor for the war industries, see that every one at home works, help the Local Exemption board in some cases, assist in production of food and feed. In other words, it has become the means of communication between the government and the people. The citizens of Ada will not be asked to support this organization entirely. The other towns in the county will be asked to donate something, and they will be glad to do so. The citizens of the other towns insist they ought to be permitted to help bear this necessary expense.

AMERICANS AND JAPS DEFEAT BOLSHEVICKI FORCES

(By the Associated Press)
TOKIO, Nov. 7.—Capture of Khabarovsk, Siberia, by American and Japanese troops has been a subject of mutual congratulation by commanders of the troops of the two nations which co-operated in this swift move of 420 miles north from Vlad-

ivostok to the point on the Amur river.

The American troops were commanded by Lieut. Colonel C. H. Morrow acting with the Twelfth Japanese division. For the share of the Americans in the action, Lieut. Colonel Morrow has received a congratulatory message from Baron General Ueyhara, chief of the Japanese General Staff, through General Otani, commander of the Allied forces. In return Lieut. Colonel Morrow sent the following message to Baron General Ueyhara:

"General Otani's campaign on the Ussuri and the Amur, for rapidity and success is truly remarkable. He landed at Vladivostok on the 19th of August, concentrated on the 23rd, and fought a brilliant and successful battle on the 24th. On September 5th he has moved his army 420 miles for the capture of Khabarovsk; an accomplishment worthy of the best traditions of the glorious Japanese army."

"I sincerely thank General Oi and the staff of the splendid 12th division for all the courtesy and friendly feeling displayed to the American troops under my command. The serving together of the Japanese and American armies will more closely unite the already friendly nation."

TO THE MEMORY OF LT. RICHARD HARRISON

The sad intelligence of the passing of Lieut. Richard Harrison by being killed in action has just reached here.

In his death he made the supreme sacrifice for his country and her ideals. He died the death of the brave. He fell in action in front of a German machine gun nest where he was leading the gallant Company "F" formerly Company "G".

Lieut. Harrison rose from the ranks and the measure of this accomplishment is to be considered in the light of the fact that in his company are to be found many of the brightest and bravest young men in Oklahoma.

Richard, as I knew him, was a student and thinker. He lived in a high atmosphere and clung to high ideals. He always wore a smile and in all of my contact with him I never saw him exhibit anything but the polished gentleman.

In his going "West," as the soldiers say, Company "F" lost a gallant officer, his comrades in arms a keen companion and friend; Seminole County one of her ablest sons; Oklahoma one of her brightest and most promising citizens; the Nation one of her best soldiers and heroes; and his family one of their most loved and accomplished members.

No more shall he hear the bugles blow nor the cannon's roar. No more shall he hear the strains of "The Star Spangled Banner," nor gaze upon the flag he loved so dear. But today he listens to the music of the golden harps and the plaudits of those who have died for men; and to him shall be spoken the words, "Well done thou good and faithful servant enter thou into the joys of thy Lord."

His friend,
TOM D. McKEOWN.

To the Public.

Our attention has been called to the fact that some one is soliciting funds for the Emergency hospital. No one has been authorized to solicit funds for the hospital. At the proper time a committee will be appointed whose duty will be to solicit funds to defray the expenses of the Emergency hospital.

We will ask the public not to contribute funds to people representing the Red Cross unless they know them to be authorized representatives.

We do this for your protection, also to protect the Red Cross.

ADA BOY GETS MEDAL OF HONOR

William Frank is in receipt of a letter from his son, Kenneth C. Frank of the 5th machine gun battalion stating that he was wounded in action Sept. 12. He enclosed a photo of himself and on the breast he wore a medal of honor awarded only in cases of exceptional bravery.

S. A. T. C. NOTES.

The S. A. T. C. was greatly honored Tuesday night by a recital given by Miss Ina Pearl Curry, vocalist, and Miss Mildred Miller, accompanist. Miss Curry is one of the best voice teachers in Oklahoma and the soldiers were carried away with the numbers she gave. They were also very enthusiastic in following her leadership of their chorus songs. Miss Miller delighted all with her artistic work at the piano. We all hope these accomplished musicians will visit us again soon.

Corporal Ed Brents is in the hospital today. Sergeant Otto Shaw, who has been quite sick this week, is expected back in quarters soon.

It was decided not to start school this week as some of the men have not entirely recovered from the influenza, but according to present plans all departments of the normal will open next Tuesday.

Mr. and Mrs. Fred Schreiber and a party of friends visited the barracks Monday night. Mr. Schreiber on the violin and Miss Johnnie Anderson at the piano gave the men a delightful entertainment. A return engagement at an early date will be appreciated.

A football game, the first equally matched game of the season on the home grounds, will be played Saturday between the S. A. T. C. of Ada and that of the Alva normal. The game will be called at 3:30 sharp. The local men are doing some tall practicing and if the visitors win it they will certainly have to play the game. Don't fail to be on hand for it will be interesting. The health authorities have given permission for the game to be played.

Spencer and Clark Win.

ST. LOUIS, Nov. 7.—Incomplete returns received tonight indicate the election of Selden P. Spencer, republican, by a plurality of 20,000 votes over former Governor Joseph W. Folk, to fill the unexpired term of the late United States Senator Stone, the election of Speaker Champ Clark, who was reported defeated last night by a majority of 2,400 over his republican opponent; and the defeat of the statewide prohibition amendment by at least 10,000. Clark's majority is 250 greater than that given him two years ago.

Gentry, republican, apparently is elected congressman from the Eighth district.

SAVED BY GIRL LASHED TO MAST

Crew Rescued After Thrilling All-Night Experience in Lake Storm.

HOLDS HEROIC VIGIL

Signals Bring Succor to Helpless Craft on Lake Michigan After All but Daring Young Woman Are Exhausted.

Chicago.—Lashing herself to the mast of a disabled boat in the gale that swept Lake Michigan, Miss Margaret Sturdy, daughter of Mr. and Mrs. Joseph F. Sturdy of 115 East Chicago avenue, maintained an heroic vigil until dawn. Then the American flag she was waving as a signal of distress brought succor. The boat was several times on the verge of foundering.

This was the story brought to Chicago after Capt. A. F. Brown and his crew of the South Chicago coast guard station had responded to Miss Sturdy's signals and rescued both boat and passengers. The boat, which was eight miles out in the lake, was towed in. Aboard it, besides Miss Margaret, were her parents and a crew of two men.

From Portland, Me.

They had brought the boat, a 60-foot sailing yacht with an auxiliary gasoline engine, from Portland, Me., where Mr. Sturdy purchased it for Mrs. Sturdy some weeks ago. It is named the Mikado.

The voyage had been uneventful save for a few minor squalls until they encountered the storm. Even then they would have made Chicago safely had not the gasoline engine become disabled. The sails were useless in the high wind.

They drifted all night, Miss Sturdy told a reporter, while the crew tried in vain to repair the engine. Toward midnight the violent pitching of the boat caused Mrs. Sturdy to become ill. She failed to respond to emergency treatment and her condition was such that the services of a physician were urgently needed.

ed Mr. Sturdy and his two-man crew, and they succumbed to sleep about three o'clock in the morning. The duty of guarding the little vessel thereupon devolved upon the daughter.

The storm showed no signs of abatement. Big combers were breaking over the deck and the Mikado was tossing about like a cork when Miss Sturdy took the vessel's American flag and fought her way to the mast, just about the bow. Using a coil of hempen rope, she bound herself to it and remained there until about five o'clock, when Captain Brown's lookout sighted her distress signals.

NEW SWINDLE IN CANADA

Crooks Impose Fines on Farmers for Having Too Much Food in Possession.

Vancouver, B. C.—County police in the farming sections of British Columbia are hunting for a number of clever crooks who have been imposing fines on farmers for having too much meat, flour or other provisions on hand. One farmer reports having been fined \$25 by one of these supposed inspectors who had been fed by the farmer and housed all night. At breakfast the visitor was served with bacon. The fine was then imposed for serving meat on a meatless day.

VICTORY BOYS WILL HELP WAR WORKERS

"Victory Boys" is the name of the boys "earn and give" division of the United War Works Campaign.

By enrolling as Victory Boys, boys of Pontotoc county will be given an opportunity to back our American fighters. "A million boys behind a million fighters" is the national slogan of the Victory Boys.

Our soldiers are making a great sacrifice to make the future of our boys safe. Now the boys are given a splendid opportunity to do some real work to back the soldiers.

Boys who have earned money and saved it, or boys who are willing to work to earn money, and who will give of this money to serve our soldiers through the United War Works campaign may join the Victory Boys.

"A million boys backing a million fighters," will mean a live, wide awake boy in Pontotoc county behind every soldier who has gone to the colors from here. It will mean boys to make our soldiers more comfortable.

The money given by the Victory Boys must be solicited by the boys, or given to the boys, it must be earned by the boys.

The Victory Boys may pay their pledges cash or in three payments; on Dec. 2, 1918, on Jan. 15, 1919, and March 1, 1919.

The campaign among the Victory Boys will begin Monday, Nov. 11, at the same time as the regular campaign of the United War Works. The boys would do well to begin to plan at once how they may make a large subscription to this fund.

As far as possible help will be given to the boys in finding work to do. Business men and house keepers are urged to give the Victory Boys an opportunity to earn money for their pledges.

A Victory Boys leader has been appointed in the different communities in the county. As many Victory Boys as there are soldiers boys will be the goal set in each locality. These leaders will receive full instruction and make the plans in detail for the work in their community.

E. E. ERICSON,
County Chairman Victory Boys.

HEAVY MAJORITY FOR STATE TICKET

From the Oklahoman.

With 1,807 precincts out of 2,471 in the state reported, including sixteen counties complete and partial returns from forty-four others, J. B. A. Robertson's lead for governor Wednesday night was assuming the proportions of a landslide, holding out the prospect that the Democratic majority in Tuesday's election had set a new record. Those precincts gave Robertson 64,342 and McKeever, his Republican opponent 47,758, or a plurality of 16,584. Scattering reports on the vote cast for Pat Nagle, Socialist, show that that party's strength has been reduced to a negligible quantity in Oklahoma.

Estimating upon the basis of the returns at hand and remembering that most of the districts yet to report are strongly Democratic, it is indicated that the plurality given to Judge Robertson will go at least to 35,000, possibly to the Democratic campaign manager's first estimates of 40,000.

The plurality given to Charles N. Haskell in the first state election was 27,200; to Lee Cruce, in 1910, 20,691; and to Robert L. Williams in 1914, 4,692.

It is estimated now that approximately 200,000 votes were cast in Tuesday's election.

Although returns are still far from complete on the woman's suffrage question, late reports hold out the prospect that there one state issue submitted Tuesday has overcome the "silent vote" handicap and may have been given a majority of all votes cast in the election. Four hundred and sixty-eight precincts, scattered through twenty-three counties of the state report for suffrage 29,512, opposed 19,899. In nine counties reporting complete on the question, 11,863 votes were cast for the amendment and 9,627 against it. In those same counties the vote for governor, omitting the socialist vote, which has not been reported, was 20,571, showing the possibility that the 11,863 favorable votes may have been near a majority over all. In those nine complete counties are two, Adair and Sequoyah, which gave unfavorable majorities—the only two negative reports so far received.

If 200,000 votes were cast in the election for state officers, more than 100,000 favorable votes will be required to carry the amendment.

While returns so far on the rest of the state ticket are scattering and unofficial, indications are that the entire democratic state ticket has been elected with majorities, ranging near to that accorded the candidate for governor.

Senator Owen's majority, apparently, will be as large, if not larger, than that given Judge Robertson, possibly running to 45,000 or 50,000. All six of the present democratic representatives in congress have been re-elected by decisive majorities.

With E. B. Howard democrat, leading T. A. Chandler, republican congressman from the First district, by 909 votes in the district, Chandler's managers last night conceded Howard's election, although it was claimed the final count would cut the plurality to not more than 200.

HONEY SWEET

By MAEY JORDAN GARTH.

(Copyright, 1918, Western Newspaper Union.)

"Volume one of my life—closed." Van Daere brought together the lock snaps of the great ledger. He was through with business—all through. After ten years of striving, speculating, manipulating, leading the feverish, uncertain life of the average broker, he had arrived at a point where every dollar he had in the world must go to meet his honest obligations, or he must stand forth in the world a dishonored bankrupt.

"Owing nothing, owing nothing," he mused, with a half whimsical smile. "I wonder what will open volume two of my life. Come in."

A rare good friend, Tom Dalley, had tapped at the half glass door, peered in and came in, throwing himself into a chair and strangely viewing the trusted and beloved chum of a full decade.

"It's true?" he asked, dimly.

"You're sold your membership?"

Daere nodded, gravely but serenely. There was a certain joyous satisfaction in feeling a load of debt lifted from his shoulders.

"You don't want a position—backing, maybe a loan?" persisted generous-hearted Tom.

"Not a bit of it. The game hasn't been worth the candle. I have no thought of renewing it. Good old fellow! you were one of the true ones."

"What's your plan?"

"I have none."

Tom meditated, moodily surveying his friend with real pity. He did not like the sheer resignation of his mood. It seemed aimless.

"Oh, by the way!" he spurred up abruptly. "I've a draft for you. It's only one hundred and seventy-five dollars, but it may be the forerunner of a regular income."

Daere glanced over the document. It was dated at Hopeton. It was signed Abner Wade.

"Must be a mistake," he submitted. "I know no Abner Wade."

"You've forgotten, that's all," observed Tom. "One of your many kind deeds. Remember my coming to you four years ago telling of an honest, worthy old fellow named Wade, at Hopeton, who had a little place and wanted a thousand dollars to experiment in bee culture?"

"Why, yes," dimly acceded Daere. "There was a broken-down old man who had been a professor of entomology in a college and his daughter, Muriel. I vouched for repayment and you never even asked for details. Well, this morning I got their first check. It seems that every dollar you loaned those worthy people, and every dollar they have made has gone into a heating plant to provide for the bees in winter and a lot of other new-fangled contraptions, invented for bees specially by the old professor. They have lived, got out of debt, the place is clear, prospects dazzling, and you can imagine the delight of those square, deserving people to be able to begin paying dividends."

"Why, there couldn't be more than the usual 6 per cent interest," began Daere.

"The professor insists differently. He has placed the title to the whole business in your name and has settled on an equal division of the profits. You can't budge him on that, so, in the midst of this abominable poverty you seem to take a joy in adopting, you are not only a landed proprietor, but a partner in a most promising business."

"I declare!" muttered Daere, really interested, "you give me something to think about."

He thought so much about it that morning saw him headed for Hopeton. It was a pleasant diversion to weave a fancy picture of rural felicity, to feel as though he had an anchor settled somewhere. He made an inquiry at the general store at Hopeton as to Wade's bee farm.

"That's it," explained the man in charge, and pointed to a written advertisement tacked onto a bulletin board: "Wanted—Man for light work," and there followed the route to the bee farm in question.

If Van Daere had found a crabbed, self-absorbed old fossil and a capacious, suspicious old maid daughter at the bee farm he might not have stayed. Instead, he came across the most delightfully intelligent old fellow he had met in a year. As to the young lady, as to Muriel—she was beautiful and attractive as her own sweet, modest name.

So Daere "hired out." Within a week he was as deep in the science of bee culture as the old professor. The business possibilities of the venture appealed to the true commercial sense in his nature. As Muriel, daintily taught him how to handle the little treasure gatherers he evinced a fascination beside which money grubbing in the city was dull, sordid work.

They were seated, those two, on a garden bench, each veiled after swarming a colony and resting and enjoying the lovely calm of the evening of a perfect day. He had been at the bee farm just two months. His hand impatiently strayed toward her own.

"Everything honey sweet," he murmured rapidly. "You, these busy little workers, the flowers. It's been a sort of new paradise to me. It's all hard money and love. Muriel, can't you guess what I want to tell you?"

She dropped toward him, for love, light, true and tender, was in his eyes. Their lips met, a double veil between, but, oh! for all that honey sweet—doubly distilled honey sweet!
